Objective

I am Front_End developer , I have a bachelor's degree of Computer and Information where i gained a solid information of computer science and software engineering. My experience lies in creating dynamic, user-friendly interface and creating responsive front-end that prioritize performance , utilizing HTML, CSS , JavaScript and the React.js Library . I am committed to continuously expanding my knowledge and skills to stay updated with the latest technologies , always striving to elevate my design and coding abilities to the highest level.

Education

Bachelor's degree in Computer and informatics , Zagazig University (GPA : Very Good +) 2019 -2023

Experience

- React Development , **Digital Egypt Pioneers Initiative (DEPI) ,** April 2024 - Present
I am currently enrolled in the Digital Egypt Pioneers Trainee program, focusing on React development. Throughout this program, I have gained hands-on experience with front-end technologies including HTML, CSS, and JavaScript, along with mastering modern tools like React Hooks, Formik, Yup for form validation, and Tailwind CSS for efficient styling. The program also deepened my expertise in building interactive and responsive web applications using React.js, enhancing my proficiency as a React developer.

- UI & UX , **Information Technology Institute (ITI) ,** July 2022 - August 2022
I have gained basics information regarding User Interface (UI) design for mobile and desktop screens using the Figma Integrated Development Environment (IDE) and front-end technologies such as HTML, CSS, and Bootstrap.

Technical Skills

Front-End : HTML , CSS , JavaScript , Bootstrap , React_JS , React Bootstrap ,Redux toolkit , React-hook-form , Problem Solving.
Version Control : Git & GitHub
Programming Language : JavaScript , Object Orient Programming (OOP) , JSON
Soft Skills :
- Self study
- Ability to work as apart of team
- Presentation and communication skills

Projects

To-Do_App   GitHub
Technologies used : HTML , CSS , JavaScript , and Tailwind CSS
- Implement CRUDS operations including creating tasks, deleting tasks, editing tasks, and searching for tasks.
- Implement a task status filter for categorizing tasks as pending or completed.

E_Commerce Website   GitHub
Technologies used : HTML , CSS , Bootstrap and JavaScript .
- Developed a full featured e-commerce plateform that support products listing , shopping cart functionality , add product to wish list and maintain authentication functionality

Workout Timer   GitHub
Technologies used: React JS , react bootstrap
- displays your to-do list and includes a countdown timer for each task.
- It utilizes hooks like useState, useRef, and useEffect.

Courses and Certificates

- **JavaScript (Mahara Tech)**   2023   Certificate
- **React (Mahara Tech)**   2023   Certificate
- **UI/UX training (Information Technology Institute (ITI)** July 2022 - August 2022
                                                                          Ceritificate

Language

- Arabic (Native)
- English
